- Variation Orders & Claims
- FIDIC Contracts
- NS Standards / Norwegian Process Code
- AutoCAD
- Autodesk Revit
- ETABS / SAFE (structural analysis)
- GEMINI Terrain
- Microsoft Excel (advanced)
- VISION / SAP (Webuild digital tools)

EMPLOYMENT HISTORY

Senior Quantity Surveyor Engineer — Sotra Link CJV | Bergen, Norway

March 2025 – Present

Project: Sotra Link Construction Project
Client: Statens Vegvesen (Norwegian Public Roads Administration)
Main Contractor: Sotra Link CJV (Webuild, FCC Construcción, SK Ecoplant)
Project Value: EUR 2 billion
Project Timeline: March 2023 – June 2027 (joined the team March 2025)
Responsible for overseeing subcontractor contracts and payments, supporting financial processes, and ensuring compliance with project standards. Key contributions:

- Manage subcontractors' Interim Payment Certificates (IPCs), ensuring accuracy and compliance with contractual terms.
- Prepare and submit claims to subcontractors in line with contract requirements.
- Finalize subcontractor accounts, conduct registration/closing meetings, and ensure proper contract closure.
- Manage subcontractor contracts ensuring full compliance with Norwegian Process Code and NS standards.
- Support the Cost Control Department with financial projections, cost monitoring reports, and budgets for upcoming periods.
- Lead and supervise the team's use of VISION software (Webuild's digital tool integrated with SAP); act as key user for issuing IPCs/IPAs, with data consolidated into financial reports for Webuild's head office in Italy.
- Handle subcontractor variation orders: preparation, issuance, evaluation, and price negotiation.
- Report to management on subcontractor contract escalations, risks, and performance status.
- Liaise with subcontractors to resolve disputes, negotiate agreements, and ensure cost efficiency.

Senior Quantity Surveyor Engineer — Società Italiana per Condotte d'Acqua S.p.A (UGCC) | Kuwait City, Kuwait

May 2019 – March 2025 (5 years 11 months)

Project 1: RA200 – Cairo Street Project
Client: PART (Public Authority for Roads and Transportation), Kuwait
Main Contractor: Società Italiana per Condotte d'Acqua S.p.A (UGCC acted as local agent in Kuwait)
Project Value: USD 359 million
Project Timeline: October 2018 – March 2025
Played a key role in financial and operational management for the RA200 Cairo Street project:

- Performed measurements for structural, architectural, and utilities works using Excel and AutoCAD to prepare and submit monthly payments to the client.
- Managed payments for over 40 subcontractors, ensuring accurate financial processing.
- Coordinated with purchasing and planning departments to ensure material availability and project progress.
- Drafted contracts, amendments, bills of quantities, and variation orders to maintain budget alignment.
- Prepared cost estimates for project planning and scheduling.
- Assisted with claims and contractor variation orders; led cost-loading efforts to track and align project costs.

Project 2: Maintenance of 6th and 7th Ring Road
Client: Ministry of Public Works (MPW), Kuwait
Role: Main Contractor
Project Value: USD 52 million
Project Timeline: September 2024 – October 2026

- Finalized main contractor payments and obtained approval from MPW.
- Prepared payments for over 7 subcontractors, ensuring timely processing.
- Coordinated with purchasing and planning departments to ensure material availability and project execution.

Civil Site Engineer — Al-Jalahmah General Trading and Contracting Co. | Kuwait City, Kuwait

October 2018 – March 2019 (6 months)

- Monitored execution of contract work for compliance with design plans and specifications.
- Performed routine training and attended events to enhance job knowledge and skills.
- Carried out quantity takeoff and prepared subcontractor payments.

EDUCATION

Bachelor's Degree in Civil Engineering

Al-Ahliyya Amman University, Amman, Jordan | September 2014 – June 2018

Officially recognized by the Norwegian Directorate for Higher Education and Skills (HK-dir/NOKUT) as equivalent to a Norwegian bachelor's degree, plus one additional year of higher education at bachelor's level.
